

March 23, 2010

Dear CPCS Parents,

The Indiana State Department of Health has implemented significant changes to the school immunization requirements for the 2010/11 school year. Please refer to the enclosed summary of changes for specific details on how these will relate to your child(ren).

Enclosed also find applicable forms for your child(ren) provided by the Lake County Health Department (LCHD). **Please note that the LCHD mandates that completed forms must be turned into the school office prior to the start of the 2010/11 school year.** Required forms vary by grade so please be sure you have the correct forms prior to your child's clinical visit. These forms are also posted on the CPCS website, www.crownpointchristian.org.

If your child is graduating from eighth grade this year the LCHD has provided immunization forms for your convenience.

Please contact your health provider or the LCHD if you have any questions or require additional information.

Sincerely,

Ms. Carol Moxey
Education Administrator
