Middle School 1:1 Laptop Program

What is the 1:1 laptop program for middle school students?

- CPCS offers a 1-to-1 laptop program for its Middle School students. What this means is that each Middle School student is provided with a laptop to supplement his or her educational experience. The laptops are preloaded with all of the software and tools that the students need to complete their studies at their level. In addition, the laptops are configured to keep students safe while online both at school and at home using a system hosted at the school. All student web traffic is filtered through this device, even when they are away from the building.
- For many subject areas, students can access textbooks and other related curriculum online. Some classes even have their activities and deliverables integrated into the textbook publisher's online portal making completion and submission of assignments seamless and effortless.
- The integration of technology into the curriculum at CPCS (Pre-K through 8th Grade) is designed to promote responsible, creative authorship amongst students while engaging them in their study of God's creation. Utilization of technology in the classroom and at home must be second nature for our students as they gain the skills they need to be productive, qualified leaders for their generation; and so our goal is to seamlessly integrate technology education into their studies so as to make it a tool for creative expression and content production from the earliest of ages. The Middle School laptop program is simply an extension of that philosophy. By putting the technology resources into the hands of students and making it available to them 24/7, our students feel a greater sense of ownership and empowerment than at any other time.

Parents' Club uses the funds raised by these fundraisers to host Donuts for Dudes, Career Day, and Grandparents' Day. We also purchase lunch/gifts for Teacher Appreciation Week, all staffs' birthday and Christmas gifts, and anything else that may come along where we are needed throughout the year. We then take the remainder of our funds and make special purchases related to school needs. (I.e. playground equipment, tablets, cameras, piano, tables, smart boards, etc.)

How can parents get involved in Parents' Club?

- To get involved in Parents' Club, talk to a committee member towards the end of the school year as we are always looking for members for the following year. You can contact the Parents' Club president, Renee Rietveld, for more information at jrrietveld15@aol.com.

Report Cards

How and when are report cards issued?

- Report Cards are issued electronically via email the Friday following the end of each quarter. CPCS staff members generate emails through RenWeb to the parents of CPCS students in grades 1 through 8. The email will contain a link to the Report Card, which is good for two weeks. Parents can retrieve the Report Card by clicking directly on the link; there is no need to sign in. Therefore, the email can be forwarded to others (grandparents, for example) who can also retrieve the Report Card until that link expires.
- RenWeb reports are best viewed from Internet Explorer with "Compatibility View" turned on. See the following article on Compatibility View for RenWeb: <https://www.renweb.com/rwlogin/Internet-Explorer-11.aspx>

Are athletes guided to do their best with their God-given abilities?

- Athletes are always encouraged by coaches to do their best and develop their God-given abilities.

Is CPCS a competitive school out to win and play the best athletes?

- We try to stress involvement over competition at the appropriate ages (for example: “B” soccer team is developmental and learning in nature whereas “A” soccer stresses excellence in soccer while competing for a league championship). 6th and 7th boys and girls basketball are very developmental in nature, competing to the best of our ability but stressing play for all and teamwork. 8th Boys and Girls Basketball are intended to prepare kids for high school competitive basketball and develop an excellent team competing for a league championship.

How is Christ incorporated in our sports’ programs?

- Coaches are always strongly encouraged to incorporate Christ into all of our team practices and games. Devotions and prayer are always a part of our team time and the way we play and the spirit through which we teach about winning and losing helps our kids see Christ in us. Our program will never be about winning over developing kids spiritually, mentally, emotionally, and socially.

Tuition

How can I save on tuition?

- There are currently two ways families can save on tuition: 1) Scrip and 2) the Indiana Choice voucher program. See below for more details.
- Scrip: Scrip is a tuition reduction program at Crown Point Christian School. Scrip gift cards or certificates are ordered online or from the order sheet (provided from the Finance Manager, Mrs. Schaap) at face value. The school purchases these gift cards at a discount (amount of discount for each retailer is noted online or on the order form). The difference between what you pay and what the school pays is the profit. We split the profit: $\frac{3}{4}$ of it is credited to your tuition account and the remaining $\frac{1}{4}$ goes to the school to pay the expenses of running this program, along with a small amount of profit. Tuition accounts are credited 3 times per year, at which time it will show on your tuition statement as a credit. More information can be accessed online at <http://www.crownpointchristian.org/community/scrip/>

- Indiana Choice Voucher Program: Crown Point Christian School is a registered participant in the Indiana Choice Scholarship Program. Indiana is committed to providing all children access to quality educational opportunities. Indiana's Choice Scholarship Program, commonly referred to as the voucher program, provides scholarships to eligible Indiana students to offset tuition costs at participating schools. Students must satisfy both household income requirements and student eligibility criteria to qualify. Participating schools and interested parents work together to enroll students and to submit Choice Scholarship applications to the Indiana Department of Education.
