

March 25, 2021

Dear Association Members,

We are excited to announce that the Phase VI Construction Project at CPCS has been approved by the Association! The motion passed with 78% of those who voted voting in favor of the project. The Board of Trustees remains encouraged by the response from the Association, and eagerly look forward to what God will accomplish with the space once completed.

The Board affirmed appointment of the following individuals to serve on the 2021 Capital Campaign:

Patti Jabaay
Kevin Bruinsma
Eric Woo

Justin Kats
Andi Rispens
Carrie Edwards

The Committee plans to get started on fundraising and communication efforts immediately after Spring Break. As was mentioned during the town hall meetings as well as at the Special Association Meeting, communication with our Association is something we strive to work effectively as this project progresses. The Board of Trustees as well as the 2021 Capital Campaign Committee will work with one another with intentionality to provide consistent updates and communication as we go along.

Please be in prayer for this project and over those involved in the process; pray for the members of the 2021 Capital Campaign Committee as well as our faculty and administration as we build CPCS toward its future; and prayerfully consider giving toward this extraordinary project. Just as we enjoy the facilities from past construction projects at CPCS, we are confident that this Phase VI addition will serve our students and our Association for generations to come.

Humbly,

John Ryan Terpstra
President, CPCS Board of Trustees

For more information on how to donate to the Phase VI Construction Project, please contact Patti Jabaay, Development Director at pjabaay@crownpoinchristian.org.
